## 6. Setting up your first HANA project in SAP Business Application Studio

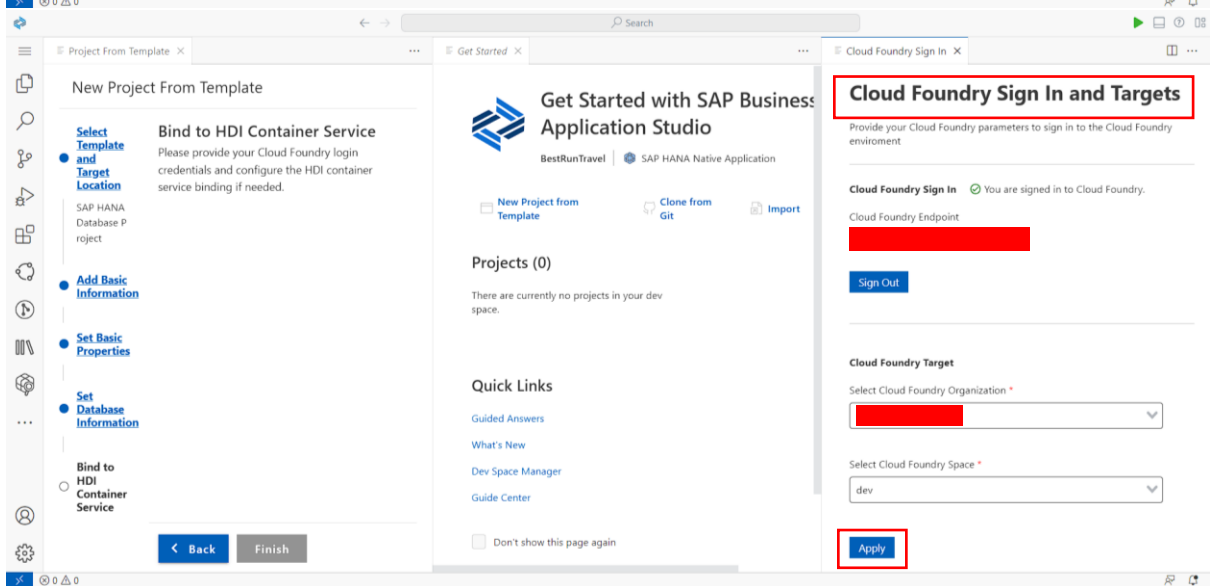

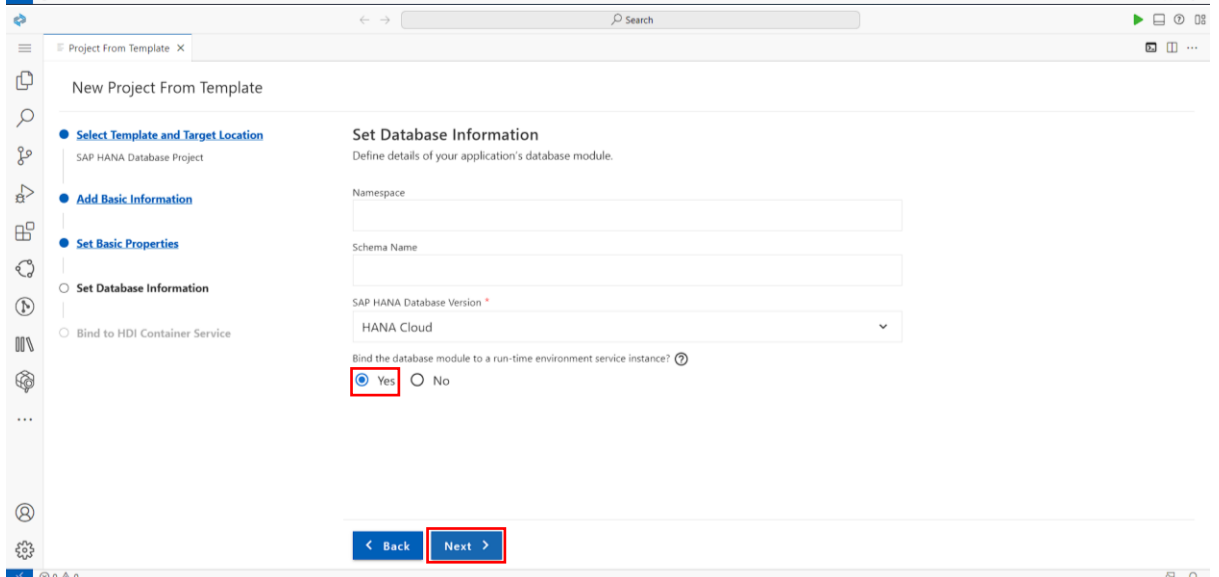

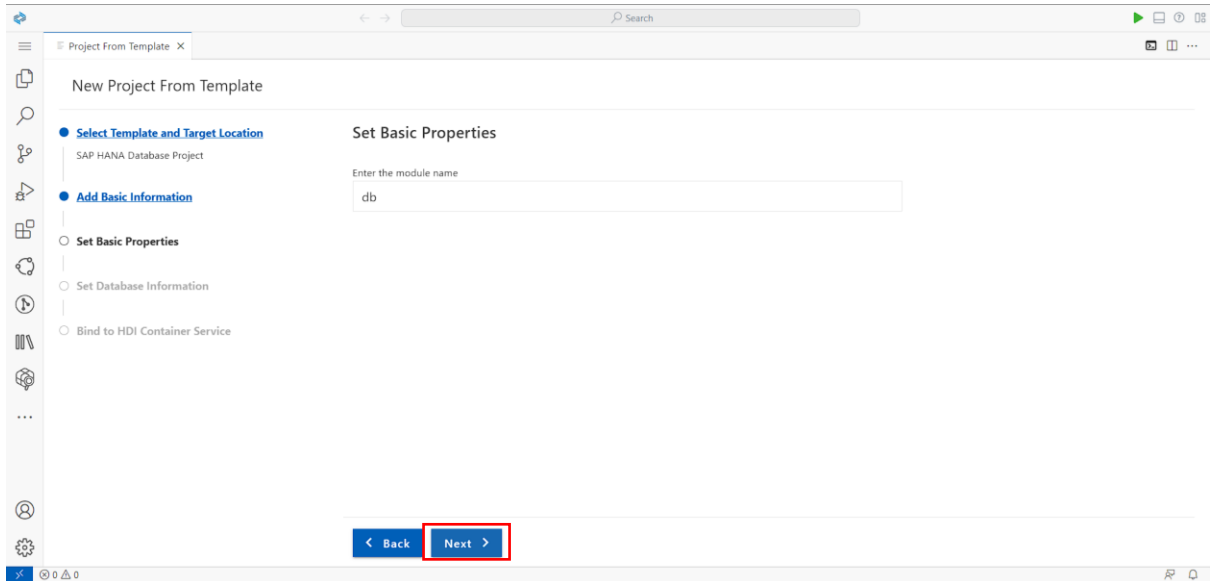

The screenshot displays the SAP BTP Cockpit interface for Subaccount: trial2 - Instances and Subscriptions. The left sidebar shows the navigation menu with options like Overview, Services, Service Marketplace, Instances and Subscriptions, Cloud Foundry, Spaces, Space Quotas, Org Members, HTML5 Applications, Connectivity, Security, Users, Role Collections, Roles, Help and Support, Useful Links, and Legal Information. The main content area shows the Subaccount: trial2 - Instances and Subscriptions page. It includes a search bar, filters for All Services, All Plans, and All Statuses. Below the filters, there are tabs for Subscriptions (2), Instances (3), and Environments (1). The Subscriptions tab is active, showing a table of applications to which the subaccount is currently subscribed. The table has columns for Application, Plan, Created On, Changed On, Status, and Actions. The applications listed are SAP HANA Cloud (Plan: tools, Created On: 30 Sept 2023, Changed On: 30 Sept 2023, Status: Subscribed) and SAP Business Application Studio (Plan: trial, Created On: 16 Oct 2023, Changed On: 16 Oct 2023, Status: Subscribed). Below the Subscriptions tab, there is a section for Instances (3), showing service instances created in the Cloud Foundry environment. The table has columns for Instance, Service, Plan, Runtime Environment, Scope, Credentials, Status, and Actions. The instances listed are BestRunTravel (Service: SAP HANA Cloud, Plan: hana, Runtime Environment: Other Environments, Status: Created) and BestRunTravel-con (Service: SAP HANA Cloud, Plan: hana-cloud-connection, Runtime Environment: Other Environments, Status: Created). A red box highlights the 'Go to Application' button in the Actions column of the SAP Business Application Studio subscription row.

Application	Plan	Created On	Changed On	Status	Actions
SAP HANA Cloud	tools	30 Sept 2023	30 Sept 2023	Subscribed	...
SAP Business Application Studio	trial	16 Oct 2023	16 Oct 2023	Subscribed	...

Instance	Service	Plan	Runtime Environment	Scope	Credentials	Status	Actions
BestRunTravel	SAP HANA Cloud	hana	Other Environments			Created	...
BestRunTravel-con	SAP HANA Cloud	hana-cloud-connection	Other Environments			Created	...
